About

Formed in Taipei in 2023, Shark Chimney is a five-piece band blending R&B and Funk with Soul and urban indie pop, influenced by Dirty Loops, Bruno Mars and Lucky Daye.

Witty lyrics and a modern, energetic sound frame the absurd relationship problems surrounding today's young adults. From romantic delusions and situationship limbo to the gap between fantasy and reality, Shark Chimney turns distinctly Gen Z observations into songs that are funny because they feel true.

The band released debut EP Vega in 2024, earned a StreetVoice Editor's Pick for Stolen Heart, and won the 2025 Iron Rose Music Awards with Corner of Love. A new album is now in development.

轉角遇見愛 Love Around the Corner

We keep imagining life like a TV romance, certain that true love is waiting around the next corner. Love Around the Corner bursts that pink bubble with an upbeat groove: what feels like fate is often just the mind filling an ordinary day with endless fantasy.

The song earned Shark Chimney the Grand Prize at the 2025 Iron Rose Music Awards and was expanded into an official music video. It is also the first release completed by the band's new five-piece lineup after bassist Bibu joined, opening the next chapter for Shark Chimney.
